Dear Josh —

Greetings from Stanford, where I'm
trying to get settled and organized.

Can you catch me up to date on
reprints? I have now

Ryan + L. 1946 Reverse mut'n.

L. + Tatum 46 Detection of biot. mut.

'46 J. Bact. 52:503 abstract - Stud. Bact. Gen.

'46 Nature: Gene Recomb.

L. + Tatum: Cold Spring Harbor. II.

Tatum + L.: Gene recomb. J. Bact 53.

'47 Nutrition of Salmonella.

'46 Science. Nutritional conc. of cancer.

'48 Genetics Soc. abstract.

The Heredity review was a nice job,
both of organization and literature coverage.

Any tetraploid E. coli yet?

Sincerely,

David Perkins
